

TOMUS XXV.

<i>Licskó I.</i> : Relation between bent functions and highly nonlinear functions	3
<i>Gonda J.</i> : Polynomial-like Boolean functions	13
<i>Daróczy-Kiss E.</i> : A new bound for the minimal diameter of nine coplanar congruent disks	25
<i>Nguyen Xuan Thao and Trinh Tuan</i> : Generalized convolutions of the integral Kontorovich-Lebedev, Fourier sine and cosine transforms	37
<i>Farkas M., Dias Ferreira J. and Tabares P.C.C.</i> : Degenerate center in a predator-prey system with memory	53
<i>Katsányi I.</i> : Restricted insertion-deletion systems	67
<i>Luca F.</i> : Sums of two squares and the irrationality of a series involving Fibonacci numbers	75
<i>Lengyel M., Sztrik J. and Kim C.S.</i> : Simulation of differentiated services in network simulator	85
<i>Mykhalevich K.V.</i> : On the ergodicity condition of a $GI/D/1$ retrial queueing system with constant retrial times and a dynamic service priority	103
<i>Kátai I. and Subbarao M.V.</i> : Some remarks on the φ and on the σ functions	113
<i>Kátai I. and DeKoninck J.-M.</i> : On the average of $d(n)\omega(n)$ functions on short intervals	131
<i>Burcsi P. and Kovács A.</i> : An algorithm checking a necessary condition of number system constructions	143
<i>Bérczes T., Sztrik J. and Kim C.S.</i> : The impact of multimedia traffic on the performance of proxy cash server	153
<i>Indlekofer K.-H., Yi-Wei Lee and Wagner R.</i> : Mean behaviour of uniformly summable q -multiplicative functions	171
Papers published in volumes I-XXV (1978-2005) by authors	195
<i>Csajbók T., Farkas G., Járαι A., Járαι Z. and Kasza J.</i> , Report on the largest known twin primes	247
