

TOMUS V. (1984)

<i>Grigor'ev E.A.</i> , Ob ustojchivosti odnoj obratnoj zadachi dlya parabolicheskogo uravneniya	3
<i>Shyutte F.</i> , Reshenie zadachi obtekaniya konechnoj ploskoj plastiny nedogretoj zhidkost'yu v rezhime plnochnogo kipeniya	11
<i>Gröger M.</i> , Location problems in graphs	21
<i>Kósa A. and Shamandy A.</i> , On the smoothness properties of stationary functions arising in calculus of variations	29
<i>Iványi A. and Pergel J.</i> , Performance evaluation of an algorithm processing 0 – 1 sequences with priority	37
<i>Muneer Y.E.</i> , Hermite interpolation and the boundary value problems	41
<i>Mezei I.</i> , General necessary conditions for smooth convex problems	55
<i>Kovach A.</i> , Asimptoticheskie razlozheniya v terminakh faktorial'nykh psevdomentov	67
<i>Iványi A.</i> , Performance bounds for simple bin packing algorithms	77
<i>Fawzy Th.</i> , Approximate solution of the initial value problem for ordinary differential equations ...	83
<i>Molnár S.</i> , Some remarks on the construction of minimal dimensional control and observation matrices	87
<i>Móri T.F.</i> , The random secretary problem with mutiple choice	91
<i>Szabó B.</i> , An iterative solving of nonlinear equations	103
<i>Kőhgyi J. and Muneer Y.E.</i> , Hermite interpolation and the two point boundary value problem. Application of the methods	111
<i>Shamandy A.</i> , Applications of the gradient method to the approximate solution of boundary value problems involving a selfadjoint ordinary differential equation	123
